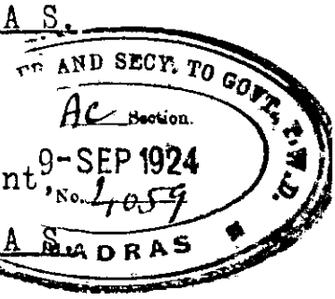
Public Works **DEPARTMENT.**

In future letters, please quote No. dated and short title *	*Rec'd*.....*Enclosures*..... *Reg'd*.....*Spare copies*....	Telephone No. Post Box No. Telegraphic Address:

No 434-G. Dated 8th September 1924.

From (Name) J.S. Westerdale, Esq., B.Sc.,M.Inst.C.E.,
(Designation) Sanitary Engineer to Government,
(Address) Chepauk, M A D R A S.



To The C H I E F E N G I N E E R,
Public Works Department,
M A D R A S.

Sir,

BELLARY WATER SUPPLY SCHEME.

I have the honour to state that telephone communication between the Hagari Pumping Station and the Service Reservoir in the town will be very desirable if it can possibly be arranged.

2. It is probable that the Telegraph Department could arrange to utilise the Railway or Government Telegraph posts for this purpose and that the cost would thus not be very great.

3. There promises to be considerable savings in several items of the estimate from which the cost can be met.

4. The telephone would be very useful during the construction of the engine house and erection of plant and if installed it may be done at an early date.

5. I have to suggest, therefore, that the Executive Engineer should be asked to address the Divisional

Engineer

Engineer, Telegraphs, Bangalore and obtain an estimate for the cost of such a connection utilising existing posts as far as possible. He might also be asked to state whether this telephone line could be connected up with the public telephone system already existing in Bellary.

I have the honour to be,
Sir,
Your most obedient servant,

J.S. Westerdale,

FROM

THE DIRECTOR,

TELEGRAPH ENGINEERING,

SOUTHERN CIRCLE,

To

The Secretary to the Government of Madras,

Public Works Department, Madras.

No. P-29, *dated at* Madras, *the* 4th November 1924.

Sir,

Refce:-- Your No. 4059 Ac/24-I dated the 10th September 1924 and subsequent correspondence.

Reg:-- Telephones - Bellary Water Supply Scheme - Connections to the Hagari Pumping Station and the Service Reservoir at Bellary.

I have the honour to inform you that the annual rental will be as follows:--

I.	For a non-exchange connection between the two places	Rs. 505/- per annum.
II.	For exchange connections.	
	(a) From exchange to Pumping Station	Rs.386/- per annum.
	(b) " " to Service Reservoir	" 150/- "
	Total	536/-

Rent charges mentioned against I and II (a) are only approximate and subject to revision as soon as the actual cost of the work is known. Further, the retentio of the telephone line should be guaranteed by the Local Government for a period of 5 years in either case.

As it is not usual to supply non-exchange connections in a station where a Departmental Exchange exists, I would request that the Pumping Station and the Reservoir be

—3983—29-3-22—25,000.

be connected to the Departmental Exchange at Bellary.

I have the honour to be,

Sir,

Your most obedient servant,

Director, Telegraph Engineering,

Esq W-H

From the Sany. Engr. no. 4344 S.B. 8-9-24

From the Director, Telegraph Engineering,
Southern Circle B 4-11-24

memo 32582-1PH
19.11.1924.

In his letter read above the Sanitary Engineer recommends that the Hagari pumping station and the service reservoir in Bellary may be connected by telephone. The pumping station is a long distance off from the town and the connection would therefore be very useful when the works are under execution and even when they are in operation.
The Director, Telegraph Engineering, who was consulted, reports that the charges for the connections would be Rs. 38 per annum approximately from the exchange to the pumping station and Rs. 150 from the exchange to the service reservoir, and requires that if the lines are to be put up, their retention should be guaranteed by the Gov

or a period of five year
The Municipal council is
requested to report whether
it agrees to the connections
and to retain them permanently or at least for
a period of five years. The
rental charges for the connectn
will be debited to the cost
of the water supply scheme
till the works are completed
and the council will have
to bear the charges thereafter.

2. A very early reply is
requested.

P.W.D.

[Telephones – Bellary water supply scheme – Connections to the Hagari Pumping Station and the Service Reservoir at Bellary.]

ff 1-2 07. C.No. 4059 Ac. from the Sanitary Engineer to Govt., No 434 9 8 8

ff 3-4 07 Letter to the D.T.E. S. Circle, No. 4059 Ac/24-1910

ff 8-9 07. C.No. 5141 Ac. from the DTE, S. Circle, No. P-29 dated 4.11.2

U.S.

In this letter at ff 1-2 07, the Sanitary Engineer suggested that it would be desirable if a telephone communication is established between the Hagari Pumping Station & the Service Reservoir at Bellary. With reference to this suggestion, the Director, Tel-Engg, Southern Circle, was

ff 3-4 07 asked to furnish an estimate of the probable cost of establishing such a

ff 8-9 07. connection. In reply, he has now stated that the two Stations can be connected by exchange lines with the Departmental exchange at Bellary and that the probable annual rental for the 2 lines would come to Rs. 536/- per annum. He has further stated that the retention of the line connection to the Pumping Station should be guaranteed by the Local Govt. for a period of 5 years.

A

In

15.2

In view of A on the previous page, it seems that the proposal to provide the telephone connections can be considered only if there is a probability of the work connected with the Bellary water supply scheme lasting for five years. The Sanitary Engineer may therefore be requested to state how long the work is likely to last.

The telephone is not only wanted during construction, but also while the plant is in operation i.e. permanently

7/11/24

DC 7/11/24 C.R. 7-11-24.

7/11/24

SD.

Yes. As the Headworks will be 10 miles from the Town a connection is required permanently I should say.

10/11/24

U.S.

The rental charges for the telephone may be debited to the estimate for the Bellary water supply scheme until the completion of the works. After they are completed & handed over to the Municipality, that body will have to pay the rental.

A

The L.S.G. Dept may therefore be requested

46

requested to consult the municipal council and offer their remarks

No. 15W, dated 6-1- 1925

Misc.

pp 1-2 C7.

The papers read above relate to the proposal to establish telephone connection from the Departmental telephone exchange at Bellary to the Hagari Pumping Station and to the Service Reservoir (connected with the water supply scheme) at Bellary. The Director, Telegraph Engineering, states that the recent charges for the two proposed connections will be Rs 386/- and Rs 150/- respectively per annum and that the former connection will be put up only if its retention

pp 8-9 C7.

is guaranteed for a period of five years. The Chairman, Municipal Council, Bellary, who was consulted in the matter, states that the Council has agreed to have the Connections for a period of five years and has no objection to the rent charges therefor being debited to the cost of the Water Supply Scheme till the works are completed and to the Municipality thereafter.

In the circumstances, the Director, Telegraph Engg, is requested to arrange for the establishment of the two Connections at an early date. He should arrange to recover the rent charges from the Exec. Engineer, Bellary Division, till the works are completed and from the Chairman, Municipal Council, Bellary, thereafter. (B.O.G.C).
